Pupil Premium Grant Expenditure 2015/2016

This is a breakdown of how we allocate the Pupil Premium funding from our school budget. This is funding allocated to the school based on the number of pupils who have been eligible for Free School Meals in the last 6 years, or who are looked after by the Local Authority.

About the Pupil Premium

The pupil premium grant (PPG) is additional funding given to publicly funded schools in England to raise the attainment of disadvantaged pupils and close the gap between them and their peers. In the 2015/2016 financial year, schools received £1320 funding per child registered as eligible for free school meals (FSM) at any point in the last 6 years. Schools also received £1900 for children who were in care or adopted from care. This includes children who are subject to a special guardianship order, a child arrangement order or a residence order.

Overview of the school

We are a small Church of England Primary School in East Devon with circa 120 pupils on roll, drawn from a range of backgrounds. This year, 14 of our pupils (12%) are receiving pupil premium funding.

The pupil premium money we receive in our school budget is used to make a contribution to the cost of a range of intervention and support programmes. This targeted support and training ensures that all our children are supported in their learning so that they can make the best possible progress. We track the children's progress through regular teacher assessments, standardised tests, book scrutinies, pupil talk, lesson observations and discussions with class teachers.
